2016 FORECAST
A year of historical proportions awaits some regions

DIRECTIONAL DRILLING
Extra-deep azimuthal resistivity improves navigation in Barents Sea reservoir

SHALETECH: MARCELLUS/UTICA
Low costs, new capacity may spur late 2016 recovery

DECOMMISSIONING
Collaborative approach can overcome deconstruction challenges

Standing Tall, amid one of those rare, heavy snowfalls that occur every 15 years in East Texas, Latshaw Rig 8 drills a Haynesville shale gas well. The 20,000ft, MD, well was drilled near the town of Center, in Shelby County, Texas, which adjoins Louisiana.
