In the highly competitive shale market, companies have to continuously improve and push the envelope. Read about new innovations on Page 20. **Cover photo of Latshaw Drilling's Rig 19 working in the Midland Basin was taken by Rig Manager Jerry Jeffers.**

CARBON CAPTURE AND STORAGE

14 CCS shows great promise, but scaling up requires collaboration, investment

Some drilling contractors already looking at ways existing rigs can be repurposed to economically drill carbon injection wells, as well as contributing to production of natural gas-based blue hydrogen
